

Autoclave Validation

Scope

TEX Onsite offers an on-site service for validation of your autoclave including:

- Temperature Validation
- Temperature Profiling
- Pressure Validation
- Vacuum Test
- Electrical Safety Test

Advantage

Regular validation of your autoclave is mandatory under Australian standard AS/NZS 4815 and AS/NZS 4187.

We make the process easy and help you to:

- Meet the standards of your accreditation
- Prevent safety related accidents, incidents, hazards and/or near misses
- Achieve sterilisation protocols
- Maintain compliance (as required to meet ISO9000 and legislative requirements)
- Keep your equipment traceable to NATA standards
- Normal validation time is less than 1 hour and is performed on-site.
- Electrical Safety Test included

Specifications

- Temperature: ± 0.05 °C
- Pressure: $\pm 0.25\%$ full scale
- Up to +150 °C
